الأردنية للعبوات المعدنية

We Print We Can!

Discover innovative printing solutions and artistic endeavors that transform your ideas into reality.

jordantinplate.com

We Print We Can!

Jordan Canning industry was established in 1998.

Throughout the years, we have managed to expand our facility to full automatic lines through the assistance of the experienced third generation of the family.

Our expertise in this field of business entails equipping our company with all the necessary constructions, equipment's, machineries, skilled labor, and the use of the best raw material available.

During our journey, we have expanded our reputation and enabled more clients to explore what we offer from different services in printing and newly creative art work through the collaboration in international exhibitions all around the world (Europe, Middle East, North America and Africa)..

Our Vision

Becoming the leader manufacture of the metal packaging industry in the region and the number one choice for costumers around the globe through the provision of excellent products and services.

Our Mission

To create and deliver high-end quality products and services to our customers through our cutting-edge technology and skilled workforce.

Our Services

We offer innovative decoration solutions to take your concept to life with high quality results, in full on time.

1 Design

Our team are passionate professionals to bring your design and concept to life. We employ state of the art technology and services. We adopt a "can do" approach.

2 Tinplate

JC purchases tinplate for can making from top manufacturers assuring only the best is used to provide top quality products..

3 Printing and Coating

JC has recently installed top end printing and coating lines. Our printing department consists of 2, 4 and 5 colour machines supported by 2 coating lines enabling short lead times in decoration with high quality results.

6 Can Making

JC produces quality cans supported by a professional quality team, assuring the "Best in Cans". JC is continually expanding the range of cans on offer both in shape and size.

5 Ready Goods

Final goods are handled with care for safe delivery, using secure packing. Our inventory system also optimizes storage space for various clients.

4 Cutting & Shaping

Moving the sheet from the printing, coating and effects, to the accurate cutting lines that enable forming the sheet to the Required shape.

SPECIAL ADDITIONS

3D EMBOSING

Our metal boxes are equipped with advanced laser embossing technology that enables the creation of intricate designs, capturing even the smallest details with exceptional precision. Utilizing state-of-the-art techniques, we ensure unparalleled quality and craftsmanship in every design.

PVC PRINTING

We offer high-quality printing on clear PVC, delivering vibrant and precise designs. Our advanced printing techniques ensure excellent detail and color stability, making your products stand out while effectively showcasing branding and essential information.

HANDLE ROPE

We offer the option to add a comfortable handle rope in multiple colors to match your product, making it easier to carry the boxes while enhancing their appeal. This feature provides a convenient way to transport the boxes and adds a unique aesthetic touch that suits customer needs.
